

Project Partner 6

National Forest Administration – ROMSILVA

(Regia Nationala a Padurilor – ROMSILVA)

Magheru Bvd. No 31, Sector 1

Bucharest–Romania 010325

Phone: +40 213 171 005

Fax : +40 213 168 428

rnp@rosilva.ro

www.rosilva.ro

main focus of institution and department

Management and sustainable development of the national forests

short description of PP activities

All the activities in link with the forests: environment protection, forest engineering, transport in forest area, development of the forests, protection against the hazards, tourism, forest research

short description of test area

River Putna Watershed Zone (with accent on forest area)

This area is a difficult zone in Romania:

- complex relief zone;
- diverse geology;
- many hazards (flood, erosion, landslide, fire);
- the property over the forestry is diverse and the roads network is unsatisfactory

what does the partner bring into the project?

NFA – Romsilva together with Forest Research and Management Institute (ICAS) have a good experience in fight against the hazards: erosion, landslide, fire, desertification, etc.

benefits for the partner by participation in the project

National Forest Administration – ROMSILVA (and, generally, forest field) will be connected at EU unitary measuring system (in this domain) of the phenomena.

Also, will be known the problems of hazards in the country (especially, in forest area)

We hope that this project will be the beginning of an unitary system of investment for the diminution of hazards effects in forest area

main contact

Petrisor Vica

Long activity in forest fire, diverse jobs
Contact person for other programme-projects too
Also, involved in the Development Department activities
